

## PROBES REPLACEMENT

### IMPORTANT

It is mandatory to change your probes every two years. Those probes are taking the measures of your pool water and are thus ordering the several products injection.

### ONLY ORIGINALS PARTS ARE AUTORIZED BY OUR SERVICES

You have two solutions:

Or you call on our technical service (travel costs to add).

Or you order the probes and our services will send you the whole kit

### BOTH PROBES LOCATION

pH probe is located on the left in the probe support.

O.R.P probe is located on the right.
